ABSTRACT

Data concerning the place of residence of students attending Maryland colleges during fall 1985 are presented. The statistical tables indicate campus enrollment patterns of residents of Maryland counties and Baltimore City, out-of-state students, and foreign students. For each county, data are provided on the number of students attending each Maryland campus, including a breakdown for new full-time freshmen, undergraduate students, graduate students, and professional students. The number of students from each county attending the following types of institutions are also shown: public two- and four-year colleges, private two- and four-year colleges, public total, and private total. Enrollment percentages are also provided in separate tables for Maryland residents, residents of other states, and foreign students, with breakdowns by level of study. Appended are data on the enrollment pattern by place of residence for students of both sexes and all racial/ethnic groups combined, as well as a separate table of this information for black students. This report provides information concerning the places of residence of students enrolled in Maryland institutions of higher education in the fall of 1985. Appendix A shows the enrollment pattern by place of residence for students of both sexes and all racial/ethnic groups combined. Appendix B provides this information for black students. Separate reports by sex and for individual racial/ethnic groups for fall 1985 as well as for 1982, 1983, and 1984 may be obtained by contacting the Research and Planning Division of the State Board for Higher Education.

The information for this report was obtained from the fall student data tape submissions of all public campuses, The Johns Hopkins University, Loyola College, and The Peabody Institute. The information from the remaining independent institutions was obtained from SBHE Form S-4, "Residence by County of Origin." In all cases the place of residence is defined as the permanent residence at the time of application to the campus.

The residence information in this report accounts for 230,629 (99.6%) of the 231,595 students enrolled in Maryland insititutions of higher education in fall, 1985. Residence information is provided for all students enrolled in the public sector and 97.0% of enrollments in the independent sector. Three campuses had not submitted residence data as of the date of publication of this report. They account for all of the data missing from this report. These campuses are: Ner Israel - enrollment 428; St. Mary's Seminary and University - 374; and Washington Theological Union - 162.
